SUMMARY

Software Engineer with a deep interest in AI. Proven track record of creating and implementing successful front and back-end web applications with a strong understanding of HTML, CSS, and JavaScript. Background experience in transportation and logistics, looking to bring my software skills to a tech company with global reach.

TECHNICAL EXPERIENCE

JavaScript	Express	Git
Node.JS	MongoDB	GitHub
React	PostgreSQL	Heroku

PROJECTS

One Stop Freight - JavaScript, Node.js, MongoDB, Tailwind, RestAPI - Live - Github
• Engineered a modern communication and information platform to increase user connectivity and provide information of necessary requirements set by U.S Customs and Border Protection for transportation of freight
• Implemented using MVC organization and passport middleware for user authentication and security

Belmont Listing - HTML, CSS, JavaScript, API - Live - Github
• Creation of a Real Estate listing advertisement website with added appointment functionality using Calendly API
• Increased marketing reach by 60% to serious buyers leading to multiple offers above market value

PROFESSIONAL EXPERIENCE

100 Devs Agency, Los Angeles, CA
Full-Stack Software Engineer   January 2022-Present
• Development of RestAPIs using MongoDB as the database and using CRUD
• Created responsive applications using JavaScript, MongoDB, Express, Node.JS, React
• Applied agile methodologies like SCRUM for project management
• Efficient in solving problems and testing broken code to determine solutions

Maze Consulting Web Development, Los Angeles, CA
Web Developer   March 2022-Present
• Designed and developed responsive front and back-end web applications for desktop and mobile devices with JavaScript, Node.js, and React
• Built a client site for a local Realtor leading to an increase of listing views by 60% compared to past listings by the same Realtor
• Increased client site traffic across small and medium-sized businesses, including a small local bakery
• Implement various sites with other web development tools such as Shopify, WordPress, and Wix.

Nippon Express, El Segundo, CA
Lead Import Agent   August 2019 – January 2022
• Led a team of 5 to provide updated cargo transportation tracking using our terminal system for our leading clients resulting in hundreds of shipments daily
• Initiated a new transportation strategy and decreased our overall costs while increasing company revenue by $200,000 annually
• Coordinated with various department heads such as sales, warehouse, and traffic center to monitor and ensure the integrity of each shipment is met to standard with little to no damage or discrepancies
• Handled accounts that were 30, 90, and 180 days delinquent in payment and took appropriate action to resolve the delinquency.
